

ReSET 2012

RENEWABLE & SUSTAINABLE ENERGY TECHNOLOGY WORKSHOP

FREE

April 12-13

California NanoSystems Institute, UCLA

Technology and Policy Efforts to ReSET our economy to renewables:

A cross-disciplinary IGERT workshop.

Proudly hosted by the UCLA Clean Green IGERT (CGI).

Sessions and panels to cover:

- 1** **Electric Vehicle Adoption and Technology.**
“What is needed to build a \$10,000 EV?”
“What is the necessary infrastructure for mass adoption?”
- 2** **Technological innovations in energy generation, storage, and efficiency.**
“Where are the low hanging fruits?”
“What are the big bets for the low carbon society in 2030?”
- 3** **Overcoming policy, economic, and business barriers to market transformation and commercialization.**
“What are the institutional and policy barriers?”
“What investments are needed to push the transformation?”

Travel Assistance Available. For more information visit:
